EXAMINE THEM. THE "COFFEE-NEVER-HURT-ME" PEOPLE.

Some famous brain workers have made a welcome discovery along the line of recovery of health by the proper selection of food. Several were of the "Coffee-never-hurt-me" kind, but, as an experiment, tried leaving it off ten days, and the use of Postum Cereal Food Coffee in its place. A definite and decided improvement in health is practically certain to attend such a change. Look carefully into the state of health of the in-

dividual who knows that "coffee don't hurt me," and you are almost sure to find some form of physical ail or functional disturbance-perhaps muddy complexion, or weak eyes, incipient heart failure, kidney trouble, liver or bowel disorders, or son form of weakness that shows plainly enough by the cry for relief sent up from some organ of the body. Why does the dismissal of coffee and the use of Postum bring help? Experiments in artificial digestion show clearly to the seientific investigator that coffee arrests digestion, and according to one authority, allows only 61 per cent of the food to be digested. That strikes at the very keystone to the arch of health. Failure in digestion means lack of good blood, and therefore a lack of food for the nerve centers. As the nerves control the organs of the entire body, one can readily understand that a disorganized nervous system may show effect in any part of the body. Therefore, a removal of the cause will allow nature to right herself. A powerful assistant to nature is Postum Cereal Food Coffee, composed of the albumen, phosphates, -luten, etc., from which nature

builds in the delicate tissues of the nerves. Postum aids digestion without drugging, and furaishes a concentrated liquid food as well as a most delicious morning coffee. If the reader has ever failed to make Postum satisfactorily, it will be found that to allow it to boil 15 minutes after boiling commences will solve the problem, as it must be so boiled to extract

taste, color and food value. It is the only original Food Coffee with a pleasant coffee flavor. Many imitations of Postum are now upon the market. imitations of Postum are now upon the market.
